

We've got your back...

R. Wayne Scott - (#27 Warwick North Central)

When it comes to CRIME,

- More Police officers - including community beat officers in every constituency - and new Police Stations in Warwick and St George's
- Three Strikes You're Out - extended jail sentences (NOT life imprisonment) for offenders convicted repeatedly of serious crimes such as trafficking in hard drugs
- Compulsory rehabilitation programmes at every stage in our Three Strike Programme to help offenders turn their backs on crime
- Tax breaks for businesses to encourage them to employ former prisoners

"The problem of youth, education and crime are all interconnected and can be addressed with caring and visionary leadership."

Albertha Waite - (#13 Devonshire North Central)

When it comes to WORKING FAMILIES AND BERMUDIANS WHO STRUGGLE,

- No payroll tax for those earning \$800 per week or less (\$42,000 per year or less): that's \$1,975 per year or almost \$4,000 per couple
- 20% of all Government contracts to small businesses: that's \$70 million per year.
- Free public transportation for all school students
- Universal pre-school education and financial assistance for parents who need it

"The working families of this country need some relief. People who work hard and play by the rules shouldn't have to worry about feeding their children."

Darius Tucker - (#7 Hamilton South)

When it comes to EDUCATION,

- School boards in every school and an independent standards board that will publish school results
- Integrated technical training from middle school to Bermuda College
- Free tuition at Bermuda College for students with a B average and 95% attendance in secondary school
- Interest free loans of up to \$15,000 per year for college level students who require support

"Education is the key to empowering our children. Unless we give our children the world-class education they deserve, they won't be able to compete in today's Bermuda."

David Dodwell - (#30 Southampton East Central)

When it comes to HOUSING,

- Build 500 homes for affordable rent in five years
- Through tax and other incentives, encourage private construction of homes costing no more than \$350,000 to \$450,000
- Ease the planning laws to allow multiple units in high density areas for special housing initiatives
- Work with financial institutions and developers to create innovative financial packages such as rent-to-buy mortgages and reverse mortgages for seniors.

"We can solve the housing problem in Bermuda. What we need is a government that focuses on the needs of those people who struggle to find a place to live."
