

For the last 3 years, less than half of our students graduated from high school.

And the graduation rate in 2007 is anybody's guess.
They keep changing the numbers.

Wouldn't you rather have a government that's committed
to truth in education?

The United Bermuda Party's comprehensive plan for education
reform includes an independent standards board to assess
the progress of our students and schools and give you the
results - unbiased and unvarnished.

reform, visit ubp.bm.**

Together we will.
